Navigating CBK Monetary Policy and USD/KES Dynamics in 2026

Every two months, the Central Bank of Kenya (CBK) Monetary Policy Committee (MPC) sets the Central Bank Rate (CBR), directly influencing commercial bank lending rates, Treasury bill yields, and the USD/KES exchange rate. Sophisticated investors in Nairobi monitor the interest rate differential between the CBK and the US Federal Reserve to protect capital purchasing power.

1. Asset Class Performance Across Kenyan Macro Regimes

Asset Class	Currency Exposure	Liquidity Speed	Primary Portfolio Role
Kenyan T-Bills / MMFs	100% KES	T+2 to T+5 Days	Local fixed-income yield
USDT (Tether) Margin	100% USD Pegged	Instant (M-Pesa B2C)	Zero-volatility USD cash reserve
Spot Gold (XAU/USD)	USD + Global Safe Haven	Instant execution	Inflation & geopolitical upside hedge
